IRAN: Digital Food Rationing rolls out using Biometric IDs amid food riots

Ice Age Farmer

2-3 minutes

Iran is set to be the first country to roll out a food rationing scheme based on new biometric IDs. Where vaccine passports failed, food passports will now be eagerly accepted by hungry people who can't afford rapidly inflating food prices. This is the realization of a longstanding agenda by the Rockefeller/UN/WEF crowd to, as Kissinger put it, "control food, and control people." Christian breaks it down in this Ice Age Farmer broadcast.
